## In aid of Cancer Research UK

13 Oct - 21 Oct 2018

### 9 DAYS | CHINA | CHALLENGING

Originally constructed to defend China against the nomadic tribes, the Great Wall of China is a truly iconic location – perfect for a Charity Challenge.

The Great Wall Discovery is a thrilling challenge of twists, turns, ups and downs. Exhaustion will quickly vanish as you savour the sweeping views of the surrounding mountain ranges.

The challenge ends in the vast metropolis of Beijing, exploring the cultural highlights of China's historic capital.

Our expert English speaking guides will be with you every step of the way, managing your challenge while providing historical context to the Great Wall and surrounds.

#### NB

This itinerary may change depending on accommodation availability. We occasionally run our Great Wall challenge in reverse, which means that you will complete all of the days of trekking given here but in a different order. We will do our very best to keep to the set itinerary; however we cannot be held responsible for any last minute changes that might occur. In all such circumstances, your expedition leader will have the final say. Should you suffer from vertigo, it is worth considering that on most mountain treks there will be occasional exposure to sheer drops. Therefore you should discuss the particular itinerary of your choice with a member of our team.

## Fundraising deadlines

You will need to send your sponsorship money to the charity as you raise it. At least 80% of the minimum sponsorship required must be sent to the charity 10 weeks before departure (by 04/08/2018), and the remaining 20% within 4 weeks of completing the challenge (by 18/11/2018). If you have raised the necessary funds, the charity will then pay the balance of your challenge costs. The charity benefits by keeping the remaining sponsorship money and every pound over and above that you raise.

## Prices include all known air taxes

We include ALL known air taxes (including fuel) at the time of costing. Many companies do not include air taxes at all, and clients are therefore hit with a surcharge of three or four hundreds of pounds just before departure. Our aim is to provide you with transparent pricing and clear instructions as to what is included in our prices and if applicable what isn't.

## Raising the sponsorship

Register for your free Cancer Research UK fundraising pack now:

<http://supportus.cancerresearchuk.org/>

## Typical group size

The typical group size is 10 - 30 participants

---

 Small group supplement

The costs and sponsorship levels on our website are based on a minimum of 10 participants. We can run this trip with 10-15 people, but there will be a small group supplement of £0. This is payable by your charity if you book under the Minimum Sponsorship or Flexi options, and by yourself if you choose the Self Funder option. We will notify you 12 weeks before departure if this is necessary.

---

## Optional extras

Trek/bike training weekends\*  
 Extensions at end of trip\*  
 Single room supplements\*  
 Travel insurance  
 Business class upgrades\*  
 (\*subject to availability)

---

## Travel insurance

Your safety when travelling with Charity Challenge is our main concern, which is why it is a booking condition that you have a suitable travel insurance policy, which covers you for the adventurous nature of your challenge, the activities you are undertaking, and the altitudes. We have chosen to partner with specialist travel insurance providers Campbell Irvine, who offer cover for an extensive number of adventurous activities. Cover is available directly from Campbell Irvine for most European residents and includes cover for emergency medical and repatriation and for your cancellation or curtailment of the challenge. Full details including costs may be found at <https://www.campbellirvine.com/charitychallenge>.

---

## Level of Difficulty

The Great Wall Discovery trek is graded as challenging. A “challenging” trip will test someone who is relatively fit and has a spirit of adventure. You may have had some previous experience, but this is not necessary as long as the correct training is undertaken. A “challenging” trip may involve some altitude, but this will be compensated by easier terrain and trekking conditions.

You can tell your supporters that on your Great Wall Discovery Challenge you will be:

- trekking for around 4-7 hours per day, covering approximately 50kms over 5 days.
- trekking up and down thousands of stairs.
- exposed to the elements, rain, wind or sunshine along the wall.
- trekking on un-renovated sections of the wall, with tricky terrain
- taking on sections at height with drops at either side
- staying in basic lodges each night

## Typical day

You will wake at around 7am, have breakfast, make your packed lunch and pack your daypack for the next section of the walk. You will be given enough water for the day and your packed lunch to carry. The rest of your luggage will be transported for you to the next destination. At around 8.30/9am we will begin the day's walk, stopping for lunch at a scenic spot on the wall around midday. You will be walking for 4-7 hours each day and arriving in the late afternoon at your next accommodation. Specific hours of activity for each day are given in the itinerary.

## Safety

Charity Challenge considers the safety of all of our participants and staff to be a top priority, and as such we have set up Challenge Safe, one of the most advanced and thorough safety management systems in the industry. Challenge Safe formalises our ethos when it comes to safety, and brings together the procedures and risk management strategies that we use to audit all aspects of our challenges, from vehicles to accommodation to the challenge activity itself. Your welfare is absolutely paramount!

In terms of your Great Wall Discovery challenge, there are a couple of important points that you should be aware of:

- The wall is very exposed, with almost no shade, and on sunny days the temperatures can soar. You should ideally be wearing a sun hat, sun cream, and hydrating constantly.
- Some areas of the wall are very remote, with no car access, and emergency evacuation may take up to 4 hours. However, there are several escape routes off the wall and the nearest medical facilities will be by stretcher and then vehicle.
- Certain sections are un-renovated, with crumbling and uneven terrain, and some steep drops at either side. Your leader will help you get through these sections if you have a fear of heights!
- Smoke alarms are not a legal requirement in China, and as such many of the lodges we use do not have them in place. Your leader will explain the emergency fire procedures to you.
- On the final day of the trek there is the opportunity to ride on a toboggan run on the wall. Charity Challenge strongly discourages the use of the toboggan run, and if you choose to do so this will be at your own risk. Also be aware that the Charity Challenge travel insurance policy will not cover you for this specific activity.

## Responsible Tourism

At Charity Challenge we are committed to sustainable and responsible tourism, and work closely with bodies such as the International Porter Protection Group and Climate Care to ensure that our challenges benefit the local environments and communities in which they take place. We ensure that all rubbish is disposed of responsibly, and following local guidelines on cultural and environmental protection and respect, we aim to limit our impact on the natural environment. In addition to taking these practical steps to ensure that our challenges are sustainable, we also make a contribution each year to a number of local community projects, so as to give something back directly to the communities that we visit. Since 2000 we have donated almost £200,000 to such projects, supporting a range of initiatives, including schooling for children in Africa, shelter for street children in Brazil, and Orang-utan conservation in Indonesia. We recommend that any gifts brought over for children are given to the UK challenge leader and distributed where needed by them and our local Ground Agent. If you wish to do more, you should consider buying drinks, postcards and souvenirs from the local vendors. For many, it is their sole source of income. For more information, please visit our Responsible Tourism pages, where you will be able to view a list of the projects that we currently support.

### Climate & Terrain

#### Climate

China has the same seasons as the UK, but much more pronounced. April and May are the spring months, and as such the trees are blossoming – there are plenty of flowers around, which may affect hayfever sufferers. In September/October, the trees are losing their leaves and the Wall is surrounded by vibrant oranges and russet colours. Both seasons are incredibly beautiful. April/October will be much colder than May/September, although in all months you may experience wind chill up on the ridges of the Wall, and heat in the valleys. The nightly temperatures will be cold, particularly in April/October, and temperatures may drop to around 5 degrees. Warm layers will be necessary for the evening, but in the day you can expect to reach temperatures of around 20 degrees in early April/late October, and around 28 degrees in late May/early September. Like the UK, the weather is changeable, and these are rough guidelines.

#### Terrain

The route is mountainous and the wall involves a trek incorporating thousands of steps up and down. There are also steep drops either side of the wall so please take this into account if you suffer from vertigo. Some areas of the Wall

are completely unrenovated, and so you may be trekking up some overgrown, crumbly paths in your quest to conquer the Wall!

### Training

Training and fitness is definitely required. It is important that you work specifically on your stamina, leg and joint strength, and balance in order to get as much out of the challenge as possible. You will be trekking up and down thousands of steps so climb stairs as often and wherever you can! The trek takes place in a mountainous environment, so the best training advice is to get outdoors into some of the mountains of the UK to familiarise yourself with walking on rugged terrain, while carrying weight in your daypack. You need to be able to sustain around 4-7 hours of trekking for 5 continuous days, so if you can then replicating this over a weekend would be fantastic training. You can also look to join one of our training weekends.

### Challenge Training

If you would like to get a feel for our challenges ahead of your departure, why not consider booking on a 1 or 2 day UK Challenge?

We have a variety of challenges, covering all levels of difficulty, taking place in stunning National Parks across the UK that are led by highly qualified and experienced expedition and mountain leaders. These challenges will give you the perfect opportunity to monitor fitness levels, test out your kit, meet people in the great outdoors, share fundraising stories and gain valuable advice and support for the challenge ahead. We encourage participants to make use of our highly knowledgeable leaders and ask them any questions you may have about clothing and equipment, expedition health and wellbeing, trekking skills, walking techniques and teamwork!

We are offering all participants **50% off** the registration fee when you book on one of the UK challenges listed via the link below. Just use the code **TRAINING** when booking. T&C's – you must have an active booking on a challenge to avail of this offer. Discount cannot be used in conjunction with any other offer. Find out more [here](#)

### Luggage allowance & valuables

The luggage allowance will depend on the airline we are using for your challenge, but in general it will be one piece of checked baggage at around 20kg.

However you should only need around 15kg-17kg. For any valuables, safe deposit boxes are usually provided in Beijing for guests' use in the hotels, but will not be available in the local lodges. Use a padlock on your luggage when in transit to reduce any risks.

Carry your passport with you and make sure you have a photocopy of your documents (travel insurance etc.) in case they get lost or damaged.

### Leadership

There will be an English-speaking challenge leader who will be responsible for the logistics and co-ordination of your challenge. There will also be numerous local support staff to assist them. The challenge leader will be ultimately responsible for the running of the itinerary and the safety of your group.

### Group Size

Each group is intended to be 20 people minimum in order to run and a maximum of approx. 30 people. We will be able to run this challenge for 10 to 19 people by charging a small group supplement of £75 which will be added to your final balance invoice (self funders) or charged to your charity (minimum sponsorship or flexi).

### Clothing & equipment

Good quality, durable kit could mean the difference between a fantastic challenge experience and an uncomfortable one. For this challenge, waterproof, well-worn in boots will be indispensable, particularly coupled with some really good quality walking socks. The benefits of a comfortable day sack cannot be underestimated, so make sure that you train with this. Other essentials are a high quality gore-tex waterproof jacket and technical/wicking t-shirts rather than cotton shirts. Walking poles are also highly recommended, as the steps on this challenge are very tough on even the fittest knees, and descents can be tricky, however we would recommend training with these prior to your trek. A full kit list for this challenge can be found [here](#), and once you book you will have access to kit discounts with our partners The Outdoor Shop, Outdoorhire and Cotswold Outdoor.

### Accommodation & Toilets

#### Accommodation

On the Wall you will be staying in basic, but adequate, lodges or hotels. It may not be up to the standard expected in Western hotels, but you should have clean linen and hot water – everything you need! In the colder months of early April and late October, we recommend taking a sleeping bag for anyone who feels the cold in the night. Blankets are provided in the lodges, but a sleeping bag will increase your comfort. The hotels in Beijing will be of a three star standard and much more comfortable. All rooms are en-suite and have facilities for charging batteries. If you are travelling with a friend or partner who you wish to share with please ensure that you note this where appropriate when booking or email [challenges@charitychallenge.com](mailto:challenges@charitychallenge.com).

#### Toilets

These range from very basic ('communing with nature' on the trek itself) to normal western standards in the accommodation. There will be en-suite toilet and washing facilities at the hotels and lodges; however, depending on the season hot water may be limited in some of the lodges along the wall.

### Food & Drink

Food is basic but filling. In recent years, breakfast has become more westernised, with eggs, tomato and cucumber, as well as cooked meats. Lunch will usually be a sandwich along with nuts, snacks and fruit. Dinner will consist of Chinese

dishes and of course rice or noodles. There will, of course, be vegetarian options provided, although the choice is more limited. It is important that you eat as much as possible during the trekking phase in order to replace body salts lost due to increased perspiration. All participants but especially those with personal eating restrictions should bring snacks to supplement their meals. You may also wish to bring additional treats like marmite, peanut butter etc. as you will be eating Chinese food everyday – this can become monotonous for even the most adventurous eater!! The tap-water is not safe to drink. Bottled water will be provided during the trekking sections, and you can buy bottled water or soft drinks in hotels and lodges for meals (around 5 Yuan, or 50p). Please let Charity Challenge know prior to departure if you have any specific dietary requirements or allergies.

### Money

**Currency:** The currency in China is the Yuan ¥. For up to date currency exchange, go to [www.xe.com](http://www.xe.com). We recommend exchanging currency before you go; however there are ATM's and currency exchanges available at Beijing airport. You can only convert 100 Yuan notes (around £10 GBP) back in the UK, so make sure that you spend any extra change.

**Credit Cards:** Cards are not accepted at the lodges along the route of the wall, therefore you should have sufficient currency with you before leaving the airport.

**ATMs:** You will have no access to ATMs the days that you will be trekking but once back in Beijing you are able to withdraw cash if needed.

**How much to bring:** All accommodation and meals are included within the price of the trip, as well as water during the days of your trek. You will not need to carry a lot of money with you during the challenge, but as there are daily opportunities to buy soft drinks, alcohol and snacks on the Wall we would suggest a maximum amount of about £15 a day (in Yuan). Bring more if you intend to buy souvenirs and take up the opportunity of the additional tours offered by the guides. You may have the opportunity of visiting an acrobat show (around £20) and enjoying a relaxing post-trek massage (about £25) on your return to Beijing at the end of the trek. The guides will also offer you the opportunity to purchase a CD souvenir of group photos (around £20), traditional name chops and other items. There are plenty of great souvenirs in China so do keep that in mind!

**Tipping:** Tipping is at your sole discretion and all staff are paid a fair wage. However, tourism is a tipping culture, and Chinese guides will generally receive a tip at the end of a job well done. If you choose to tip, we would suggest an amount of £35 per participant for the duration of the challenge (around 350 Yuan). For those on Charity Challenge organised extensions, we would suggest between £5 and £6 per person per day.

### Phone & Wi-Fi

Most of the accommodation you are in will have limited Wi-Fi which you will be able to use, but please do not rely upon this. Facebook and any Google-based applications (including Gmail) are blocked in China, so you will not have access to these sites or be able to post updates for your friends and family. You will have phone signal in almost all places on the challenge.

### Emergencies

The event is not run as a race and there is always a large discrepancy in people's walking abilities. This is allowed for.

There will be a staff member at the back of the group at all times to ensure that you are not left behind and can take things at your own pace. In the event of an emergency on the Wall, all guides and leaders are maintaining contact via radio, and the backup vehicle will not be far away. If somebody is unable to walk at all, then the guides will arrange evacuation off the Wall to the vehicle.
