---

### DAY 4 Tue 15 Mar

-

#### Mini-Trekking on Perito Moreno Glacier

This morning you depart El Calafate from the hotel and journey toward the Glacier National Park for your first introduction to glacier trekking. Arriving at the port, Bahia Bajo las Sombras (Bay of Shadows), you board a boat for a short crossing of the Rico arm of Lake Argentino, taking in the views.

After disembarking, you walk through a small, dense forest of native Lenga trees to arrive at the edge of the ice.

Here, you will attach crampons and receive a briefing for the day ahead. The walk on the glacier is fascinating, and a very up-close-and-personal experience. You will be hiking across old ice formations, with its cracks, isolated small lagoons and crevasses of magical deep blue. Watching your step as you cross the glacier, the circular walk provides you with excellent views of the lake before returning to the start point. After lunch, you will return across the lake by boat, to the boardwalk on the east wall of the glacier. Here you will go toe-to-toe with this impressive and magnificent river of ice, before heading back to your hotel. (B,L,D)

Overnight hotel in Calafate.

**\* Note: trekking on this day will require a strong level of fitness and confident trekking abilities. Due to insurance purposes in Argentina, our ground team can only take people aged 65 and under on the glacier.** If you are over this age or don't want to go on the glacier, we can split the group and you can visit the glacier in the more conventional way which is visiting the trails, catwalks and lookouts that face the spectacular glacier. There will also be a boat excursion with a chance to observe the gigantic mass of ice from the water, which provides a completely different perspective to the impressive glacier.

---

**DAY 5** *Wed 16 Mar*

On the journey, take in the various spectacular panoramic views of the Andes and Mount Fitz Roy. Trek for 3 hours spotting the petrified fossil tree trunks and possibly fossils of different species of dinosaurs, in this semi-desert environment. The sediment formations provide an insight into the geological history of the region, which was vastly different to today's times. After trekking, transfer to Chalten (B,L,D).

#### TRAVEL INSURANCE

Your safety when travelling with Charity Challenge is our main concern, which is why it is a booking condition that you have a suitable travel insurance policy, which covers you for the adventurous nature of your challenge, the activities you are undertaking, and the altitudes. We have chosen to partner with specialist travel insurance providers Campbell Irvine, who offer cover for an extensive number of adventurous activities. Cover is available directly from Campbell Irvine for most European residents and includes cover for emergency medical and repatriation and for your cancellation or curtailment of the challenge. Full details including costs may be found by [clicking here](#).

### Level of Difficulty

The Patagonia challenge is graded as tough due to the rough terrain, the trekking on the Glaciars, and basic facilities. A good level of fitness and regular training is required for this challenge. The more prepared you are for this challenge, the more you will enjoy it. Anyone who leads a fairly active and moderately healthy lifestyle should be able to complete the trek as long as they train regularly over a period of at least three months leading up to it, so as to build up stamina and endurance. Don't forget that the temperature and the altitudes will be very different from the UK and that you will be exercising constantly for a number of days.

You can tell your supporters that on your Challenge you will be:

- Trekking for 7 days consecutively for very long distances and fighting the winds and bad weather conditions of the Patagonian Mountains
- Trekking at altitudes of up to almost 1,200m
- Suffering temperatures of down to below zero degrees
- Sleeping in locations with very basic facilities

### Typical Day

During the trekking days you will rise early and pack up before breakfast, then trek carrying your bags for 6-8 hours. There will be a picnic lunch en route and plenty of time to stop and view the remarkable scenery. The evenings are spent in basic, though beautifully located, camps and refuges where the food and facilities are fairly simple.

### Safety

Charity Challenge considers the safety of all of its participants and staff to be a top priority, and as such we have set up one of the most advanced and thorough safety management systems in the industry. In a nutshell, Our Challenge Safe brand formalises our ethos when it comes to safety, and brings together the procedures and risk management strategies that we use to audit all aspects of our challenges, from vehicles to accommodation to the activity itself. Your welfare is paramount!

In terms of your Patagonia Trek Challenge, there are a couple of important points that you should be aware of:

- You will be trekking for 7 days consecutively for very long distances and fighting the winds and bad weather conditions of the Patagonian Mountains.
- You will be trekking at altitudes of up to almost 1,500m
- It will be very windy and cold especially at nights.
- You will be sleeping in locations with very basic facilities
- You will be descending and ascending to the Viedma glacier using crampons. No technical trekking experience is needed, but you will need to be in good physical conditions and no injured. Our trek guide will assess your fitness levels and determine whether you will do this trek or not.

### Responsible Tourism

At Charity Challenge we are committed to sustainable and responsible tourism, and work closely with bodies such as the International Porter Protection Group and Climate Care to ensure that our challenges benefit the local environments and communities in which they take place. We ensure that all rubbish is disposed of responsibly, and following local guidelines on cultural and environmental protection and respect, we aim to limit our impact on the natural environment. In addition to taking these practical steps to ensure that our challenges are sustainable, we also make a contribution each year to a number of local community projects, so as to give something back directly to the communities that we visit. Since 2000 we have donated almost £200,000 to such projects, supporting a range of initiatives, including schooling for children in Africa, shelter for street children in Brazil, and Orang-utan conservation in Indonesia. We recommend that any gifts brought over for children are given to the UK challenge leader and distributed where needed by them and our local Ground Agent. If you wish to do more, you should consider buying drinks, postcards and souvenirs from the local vendors. For many, it is their sole source of income. For more information, please visit our [Responsible Tourism](#) pages, where you will be able to view a list of the projects that we currently support.

### Flights

You will be making a return journey from London indirectly (via Madrid and Buenos Aires) to Calafate, Argentina. Your flight tickets will be e-mailed to you before departure.

### Visa

You must hold a full ten-year passport with at least six months to run from the end of your expedition. Airlines may not carry passengers holding passports with less than 6 months validity. You don't need a visa to enter Argentina as a tourist unless you're travelling on an Emergency Travel Document. On presentation of a valid British passport you will normally be granted a 90-day stay in the country.

If you're travelling to Argentina for any purpose other than tourism, contact the [Embassy of the Argentine Republic in London](#).

### Insurance

It is a condition of travelling with Charity Challenge that you have a suitable travel insurance policy which covers you for your entire challenge. We have a special policy which covers among other things, medical (emergency, evacuation and repatriation) arrangements, cancellation and curtailment of the challenge, and more specifically for the adventurous activities undertaken on this challenge.

If you have your own travel insurance policy, you must ensure that it provides at least the same level of cover as our recommended policy, including protecting the charity in the event of your cancellation 56 days or less prior to departure. If you choose not to purchase our recommended policy when you book we will send you a disclaimer which you must complete in your account area prior to travel.

For more general travel insurance questions, please refer to our main [FAQs page](#).

## Vaccinations & Medication

### Vaccinations

For up to date vaccination information please check the Travel Health Pro website:

<https://travelhealthpro.org.uk/countries>

### Medication

- carry medicines (including those bought over the counter) in their correctly labelled container, as issued by the pharmacist, in hand luggage
- consider packing a spare supply of medication in the hold luggage in case of loss of hand luggage
- a letter from the prescriber detailing the medicines with the generic names for the medications can be helpful for border control checks, and in case medicines have to be replaced or medical help is required
- carry a note from the prescribing physician on letterhead stationery for controlled substances and injection medications
- take out an appropriate level of travel health insurance including repatriation and specific cover for any pre-existing illnesses

N.B. Some medications are banned abroad so please check you can find further information at

<https://travelhealthpro.org.uk/factsheet/43/medicines-abroad>

Malaria risk is low throughout the year. The risk is limited to the Departments of Oran and San Martin in Salta Province in the north of the country, and to a lesser extent to Corrientes and Misiones Provinces. There is minimal risk in the tourist resort of Iguazu Falls.

## Climate & Terrain

The best season for trekking in Patagonia is between October and April. Daytime temperatures can reach 35°C in Buenos Aires and around 22°C in Calafate. Night times, especially when in Calafate and the trekking area can go down from single figures to below zero. You must be prepared for the worst, as mountain weather conditions are extremely unpredictable.

## Training & Training Weekends

This challenge is graded 'Extreme', which means that a good level of fitness is definitely required! We recommend that you have significant experience of trekking within the UK before departure. Don't forget that the temperature and the altitudes are different from the UK. While strength is important, endurance training should be your primary focus. Walking up hills and climbing stairs are both ways to condition your lower body. Begin slowly, without the weight of a pack, eventually adding weight as you increase your training pace. Take long hikes (6-8 hours) with a weighted pack, up and down hills or on small mountains (weigh your pack with water containers and pour out the water before your descent to minimise knee stress). Also see our Fitness [Training page](#).

### Training weekends

We offer superb training weekends across various locations in the UK, from Saturday morning to Sunday afternoon.

These training weekends not only help you become physically prepared for the challenge, but our experienced instructors and leaders will talk you through your clothing and equipment, camp craft, health and wellbeing, trekking skills (walking on different terrain/at altitude/at night/using walking poles), teamwork on expedition and many more themes designed to make you get the most out of your challenge. The weekends are great ways for you to get out into the mountains of the UK, while also meeting other Charity Challengers and sharing your experiences. To read more about our training weekends, including dates and prices, check out our dedicated page.

### Luggage Allowance & Valuables

The luggage allowance will depend on the airline we are using for your challenge, but in general, it will be one piece of checked baggage at 20kg.

However, you should only need around 15kg. Use a padlock on your luggage when in transit to reduce any risks.

Your main luggage will be left at the hotel in Chalten on the morning of day 7 of the itinerary and you will pick this up again on the evening of day 10 of the itinerary. For 4 days of trekking from days 7, 8, 9 and 10, porters will carry your clothes and personal items for 3 nights (8-10kg maximum).

Carry your passport with you and make sure you have a photocopy of your documents (travel insurance etc.) in case they get lost or damaged.

### Leadership

We employ a number of first aid qualified challenge leaders, all of whom speak fluent English. They will be ultimately responsible for the running of the itinerary and the safety of your group. Your local challenge leader will meet you at your arrival to Calafate, although you will be met by a Charity Challenge representative in Buenos Aires until you check in at your hotel and get your next day flight to Calafate.

### Group Size

Each group is intended to be 15 people minimum in order to run and a maximum of 24 people. We will be able to run this challenge for 10 to 14 people by charging a small group supplement of £95 which will be added to your final balance invoice.

### Clothing & Equipment

Good quality, durable kit could mean the difference between a fantastic challenge experience and an uncomfortable one. For this challenge, waterproof, well-worn in boots will be indispensable, particularly coupled with some really good quality walking socks. You don't need a clean pair every day, but enough to make sure you have dry socks each morning. The benefits of a comfortable day sack cannot be underestimated, so make sure that you train with this. Other essentials are high quality Gore-Tex waterproof and windproof jackets and trousers, technical/wicking t-shirts rather than cotton shirts, and a down jacket for the evenings in camp and your summit day/night. A full kit list for this challenge is available on the webpage and once you book you will have access to kit

discounts with our partners The Outdoor Shop, Outdoorhire and Cotswold Outdoor.

### Accommodation & Toilets

In Buenos Aires, we will be staying in a local 4\* local hotel. During the trek, we will be staying in campsites (twin tents), refuges (dormitories) and lodges. The accommodation in campsites will be sharing with someone of the same sex. The accommodation in refuges and lodges might be with more people in your group since the rooms are from 4 to 8 beds. If you are travelling with a friend or partner who you wish to share with, please ensure you submit this information at the time of booking or email [challenges@charitychallenge.com](mailto:challenges@charitychallenge.com)

Foam sleeping mats and sleeping bags are provided but do take your own if you require extra comfort.

From March 2020, international travellers will be required to pay a tax of approximately US\$1 for each night they spend in the City of Buenos Aires. At this stage, this can't be prepaid and will be required to be paid by each person before check-in. The itinerary has 3 nights in Buenos Aires.

### Food & Drink

During the day a typical packed lunch provided might consist of fruit juice, fresh fruit, sandwiches, etc. The evening meal at the campsite, lodges and refuges will be a starter with some cheese, olives, bread, a main with some beef, chicken or salad, rice, potatoes and vegetables and some fruits for dessert. Dinners will vary from day-to-day and so not all will include soft drinks. Please let Charity Challenge know prior to departure if you have any specific dietary requirements or allergies.

One refillable stainless-steel bottle per person will be provided on the expedition. This is to be refilled according to the instructions by the support staff for drinkable water.

### Money

**Currency:** Argentina uses the Argentine Peso. For up to date currency exchange, go to [www.xe.com](http://www.xe.com). GBP can be exchange at Buenos Aires airport and in the city.

**Credit Cards:** These are accepted in all major hotels, banks and stores in Argentina. Credit card receipts from stores and restaurants will be priced in Argentine Peso, although you will be billed in the currency of your own country with the official exchange rate having been taken into consideration

**ATMs:** There is an extensive network of ATMs where visitors can use. You should check with your bank before departure that your card can be used overseas and what the charges will be, as UK cash cards are not always accepted by Argentinean cash machines. It is wise to take sufficient funds in cash for periods away from the major cities.

**How much to bring:** You will not need a large amount of money during this trip and other than at the start and end of the challenge, you will be in the rural areas away from any foreign exchanges or banks. You will only need money for tips, additional food & drink, gifts & souvenirs, and for any other additional activities that you wish to do specially in Buenos Aires. On average we recommend around £300.

**Tipping:** Tips for all meals included in the itinerary and tips for guides and assistance staff on trekking days are included in the price of the expedition.

### Phone & WiFi

You will have mobile phone and internet signal during your stay in Buenos Aires, and the main cities El Chalten and Calafate. After that, you will have extremely limited mobile phone or internet reception during your trek.

### Emergencies

The event is not run as a race and there is always a large discrepancy in people's walking abilities. This is allowed for. There will be a staff member at the back of the group at all times to ensure that you are not left behind and can take things at your own pace. In the event of an emergency, all guides and leaders are maintaining contact via radio.
