SNOWDONIA FOR SCIENCE
UK

Sat 13 Jun - Sat 13 Jun 2026

In aid of Prostate Cancer Research

13 Jun - 13 Jun 2026

YOUR CHALLENGE DAY BY DAY

DAY 1 Sat 13 Jun

-

Challenge Day!

You will be welcomed at registration by Meg and the team from Prostate Cancer Research and get motivated for the day ahead with the opportunity to meet other excited walkers and feel that pre-challenge buzz! You will then be introduced to your mountain leader for the all-important safety briefing, before getting our laces tied and taking a group photo to mark the start of the day ahead.

Walk

Then it's time to set off into the mountains!

You'll be supported every step of the way by our mountain leaders who are there to navigate the terrain and keep you safe.

Both routes will begin from the Royal Victoria Hotel in Llanberis, which gives us the opportunity to avoid the usual touristy paths.

The **Multi-Peak Trek** route heads away from the town of Llanberis before ascending into the mountains that surround the town. As you trek ever higher you will conquer a succession of five different summits: Moel Elio, Foel Gron, Foel Goch and Moel Cynghorion, before the grand finale of Yr Wydda, Snowdon itself! From here the route will descend via the Llanberis path to the finish line to a very well-deserved celebration drink! The total distance is 21.6km with a total ascent of 1608m. Walking time is approximately 10 hours.

Post walk you are invited to join the team at Prostate Cancer Research and other supporters for an evening of food and celebration of your big achievement.

The **Classic Snowdon Climb** route may be slightly shorter but hiking the highest mountain in England & Wales is still a significant and exciting challenge. You will head up the valley, away from Llanberis, before joining up with the Snowdon Ranger path and hiking to the mountain peak. From here you will descend via the beautiful Llanberis path to the finish and a warm welcome back at the hotel with a celebration drink. The total distance is 17.5km with a total ascent of 1118m. Walking time is approximately 6 –7 hours.

Post walk you are invited to join the team at Prostate Cancer Research and other supporters for an evening of food and celebration of your big achievement.

Evening Celebration Buffet

After a long day on the mountain, it's time to celebrate! Prostate Cancer Research will be throwing a celebration at the Royal Victoria Hotel, to carb-load in style and raise a glass to the achievements of the day! It'll be a great opportunity to meet other participants, PCR staff and take advantage of the slap-up buffet. We'll also be marking the day with the presentation of PCR's annual Matt Rannamets Award for the top fundraiser - in honour of the man himself who founded the Snowdonia for Science event back in 2006 and sadly lost his life to prostate cancer in 2015.

We would love to see you there and hopefully be awarding the prize to you! More info and buffet celebration tickets to be released closer to the time.

NB

Please note: Charity Challenge reserve the right to make any amendments necessary to this itinerary.

The timings offered in this itinerary are offered as a guide only. Precise timings during the challenge may vary depending upon things such as weather, groups ability etc.

If you want to find up as a large team, please contact Prostate Cancer Research on snowdon@pcr.org.uk for a team registration price.

IN SUMMARY

Self-funding option

Pay a non-refundable registration fee of **£45.00** when you book.

Then a balance of **£65.00**
(5 weeks before your challenge).

Aim to raise a minimum of **£150.00** for Prostate Cancer Research.

Minimum sponsorship option

Pay a non-refundable registration fee of **£45.00** when you book.

Aim to raise a minimum of **£360.00** for Prostate Cancer Research.

IN DETAIL

Self-funding option

The full cost of this challenge is **£110.00**. You will be required to pay the non-refundable registration fee of **£45.00** at the time of booking, and 5 weeks before departure (09/05/2026) you will be required to pay the final balance of your challenge costs (**£65.00**). You will receive fundraising advice and sponsorship forms and be encouraged to raise **£150.00** for Prostate Cancer Research. As you have covered the full cost of the challenge, 100% of this fundraising will be retained by Prostate Cancer Research.

Minimum sponsorship option

You will be required to pay the non-refundable registration fee of **£45.00** at the time of booking and aim to raise a minimum amount of sponsorship, **£360.00** for Prostate Cancer Research. We require **£65** (covering the cost of your place) to be raised and sent to the charity 7 weeks (25/04/2026) before the event date, but we also encourage you to raise **£360** in minimum sponsorship by 4 weeks post event (11/07/2026). If you have raised the necessary funds, Prostate Cancer Research will then pay the balance of your expedition costs (which will not exceed 18% of the minimum sponsorship target). The charity benefits by keeping the remaining sponsorship money and every pound over and above that you raise.

What's included?

Before you go

- Members only benefits and discounts at a wide range of clothing and equipment suppliers including Outdoorhire,

Cotswold Outdoor, Runners Needs, Snow + Rock, Water to Go, The Altitude Centre, Sporttape and Nomad & MASTA.

- Support materials (itinerary, kit list, fact file, Q&As, health notes, travel tips, responsible travel policy and guidance)
- Warm up exercise routines
- 16 and 20 week trek/bike training schedule
- Risk assessment and emergency management planning
- Access to your own password protected account including support materials and training schedules
- Public liability insurance

On your challenge

- Celebratory drink at the finish line
- All challenge management before, during and post event.
- Full back-up support including first-aid qualified staff and first-aid supplies

What's not included?

Before you go

- Travel to and from the challenge start/finish point
- Clothing equipment listed on your kit list.

The details

Meg and the team at Prostate Cancer Research will be with you every step of the way to help with your fundraising. You will have one-to-one support over the months and access to materials and ideas to get you started! We'll be in touch soon to get the ball rolling and feel free to contact us on snowdon@pcr.org.uk.

Why not get started by setting up your own fundraising pages to start taking online donations:

Why support Prostate Cancer Research?

Did you know that prostate cancer is the most commonly diagnosed cancer in men? 1 in 8 men in the UK will be diagnosed in their lifetime, and that increases to 1 in 4 for black men. At Prostate Cancer Research, we aim for a future where prostate cancer is swiftly detected, successfully treated, and its impact greatly reduced on all men and their families. To make that future possible we are investing your donations into groundbreaking research and treatments to create a future where prostate cancer no longer threatens lives. Our focus is on delivering innovative solutions and improving quality of life for patients, families, and all communities affected by prostate cancer.

Patient focus is in our DNA. We involve people with prostate cancer every step of the way to ensure your fundraising powers research that is important to them, whilst also spear-heading innovative projects with patients at their heart.

We are actively engaging policymakers to secure support for key prostate cancer initiatives, including screening for high-risk groups. Our goal is to influence healthcare policy and ensure that the latest advancements in prostate cancer care are accessible to all.

Join us and we'll support you in your fundraising every step of the way, with an expert team on hand throughout and access to loads of materials and ideas to help you have a memorable and impactful experience. Together, we can create a world free from the impact of prostate cancer.

Why book with Charity Challenge?

- We are a multi-award winning challenge events specialist with over two decades of professional experience organising and leading challenges worldwide
- The very best Mountain Leaders, who are fully qualified, highly experienced, knowledgeable and fun. They will do everything to help you complete the challenge and have a great time doing it.
- Off-the-beaten-track routes to the summit of this famous mountain.

Level of difficulty

The Snowdon Challenge is graded as tough. This is the perfect challenge for participants who are of an adventurous spirit and an open mind.

- You will have a choice of two routes, one of approx. 21km and the other of 17km. Both routes are big days of walking and you can expect to be on the mountain for between 6 and 10 hours.
- The Multi-Peak Trek will see you ascend more than 1500m and the Classic Snowdon Climb involves over 1100m of ascent.
- The terrain is a mix of grass and stone tracks with very little walking on tarmac roads, only at the beginning and end of the route.
- You will need to be self-sufficient (water and snacks) when out on the hill. There are no resupply points during the route
- You will be supported you with fitness training notes and a training schedule, as well as clothing and equipment guidance and a kit list for the challenge.

What is the difference between the two routes?

In order to make this challenge accessible to as many people as possible there is a choice of two different routes. Both routes represent a considerable challenge, and both routes take you 'off the beaten path' away from tourists and crowds.

The **Multi-Peak Trek** will involve:

- 21km of trekking with over 1500m of total ascent
- Summiting 5 different peaks over the course of the day
- Steep ascents and descents as you follow the ridgeline between the peaks
- More remote and challenging terrain

The Multi-Peak Trek is therefore recommended to people who are looking for a tougher challenge. It will require significant training.

The **Classic Snowdon Climb** route will involve:

- 17km of trekking with over 1100m of ascent
- Reaching the summit of Snowdon via a more unusual route.
- Ascents and descents are less demanding than the multi-peak route
- Terrain on this route is slightly easier underfoot.

The Classic Snowdon Climb is recommended is a considerable challenge being the tallest mountain in England and Wales, and training is required.

Training

This challenge is a great adventure that will have you trekking up and down the highest mountain in England and Wales, therefore requiring a good level of fitness. The ideal training for this challenge is, naturally, hill walking. However, if you do not have the luxury of living near the hills, then the stairs at home (or an office block) are a great place to start. Most training should be part of an ongoing lifestyle, but if this is not the case then you should begin training at least 1 month prior to the challenge and gradually build up as suggested.

There is no substitute for walking in the hills so try if possible to get out on a weekend. You should train with your boots and daysack that you will be using on the challenge. The more you exercise before the trek, the more you will get out of it.

We will provide lots of support on training in the run up to the challenge!

Group Size

There will be approximately one mountain leader per 12 participants.

How is the group managed?

We employ experienced and fully qualified mountain leaders to accompany and lead you. The mountain leaders are first aid qualified and have extensive experience in leading walking challenges throughout the UK and overseas. They will be ultimately responsible for the running of the itinerary and the safety of your group. They will be carrying full safety equipment and mountain first aid kits at all times and will be in radio communication throughout.

This challenge is designed as a team challenge, and we would encourage everyone to support each other throughout.

Both routes will have their own registration times between 7 and 8am and set off separately. After a short period of walking you will all have established your natural walking speed and your leaders will begin to divide the group into slightly smaller groups to continue with throughout the challenge. This will enable everyone to hike at a speed that is appropriate to them. If you wish to walk with friends then please just start off walking together and your leaders will make sure that you remain in the same group.

How do we follow the route?

This is a leader-led challenge and the route is not marked with arrows. Your leaders are experienced navigators in the hills and it will be their responsibility to show you the way. It is therefore essential that you remain with your leaders at all times.

Weather

Weather, safety and decision-making

The weather in the UK can be unpredictable, particularly in mountainous and exposed areas. Charity Challenge plans for adverse weather on all UK challenges and closely monitors forecasts in the lead-up to, and during, each event.

We use the **Met Office weather warning system**, alongside specialist forecasts where appropriate (such as mountain weather forecasts), and live assessments by our experienced Event Managers and challenge leaders.

How we use Met Office weather warnings

- **Yellow weather warnings indicate that conditions may be challenging. Events will usually go ahead, with leaders managing conditions on the day and making adjustments where required. Rain alone rarely results in changes to our challenges.**
- **Amber weather warnings indicate a higher likelihood of severe weather and increased risk. This may result in significant route changes, altered timings or, in rare cases, postponement or cancellation if safety cannot be assured.**
- **Red weather warnings indicate dangerous conditions and events will not proceed.**

Where thunder and lightning are forecast or observed, we follow a strict safety protocol. Challenges will not begin, or will end immediately, until it is safe to proceed.

How decisions are made

All weather-related decisions are made by Charity Challenge's **Event Manager in consultation with the leadership team**, using forecast information and real-time conditions on the ground.

Participant safety is always the overriding priority, and leaders' decisions on the day are final.

Decisions around route changes, delays, early finishes or cancellation are based on the **expected weather conditions at the challenge location and along the event itinerary.**

Challenges will **not** be cancelled, postponed, or refunded solely due to severe weather warnings in a participant's local area or place of departure if conditions at the challenge location allow the event to proceed safely.

Unless Charity Challenge cancels or postpones an event, refunds or transfers are not available due to weather or travel disruption, in line with our terms and conditions.

Terrain

The majority of this challenge takes place using hill paths, which, although uneven underfoot, are fairly well maintained and regularly used. However, there is significant erosion in places so we encourage you to stick to the footpath and follow the advice of your challenge leaders.

Challenge timings

You will need to arrive at the registration point for 7:30am for a safety briefing and an 8am start. Depending on your walking speed, we expect the challenge to take between 6-10 hours to complete, and we aim to have everyone finished by 6pm.

During the trek, your leaders will be doing their best to support everyone to complete the challenge. However, there will be certain 'cut-off times' that your leaders will be working with so that everyone can complete the challenge in a safe time. On occasion it may be necessary for the leaders to provide an alternative route, that might not include reaching the summit of Snowdon. This will only be done for your safety and we ask everyone to respect the leaders' decisions, which will be final.

Please note that due to the nature of this challenge, changes may happen that delay the finish time so please make flexible travel plans.

Please note: Precise details and timings will be made available in your Final Details that are sent out one month prior to the challenge.

Getting to and from the challenge

We will confirm all of your 'Final Details' one month prior to the challenge.

The base for your challenge is the Royal Victoria hotel in Llanberis.

Only people staying at the hotel can park at the Royal Victoria. There is a big car park next door which you can use but there is a fee.

Accommodation

No accommodation is provided for this challenge.

Llanberis is well served by a variety of accommodation options for all budgets. We can recommend some of the following options:

- The Royal Victoria Hotel - [The Royal Victoria Hotel | Royal Victoria Hotel](#)
- Padarn Hotel - [Padarn Hotel - Home](#)
- YHA Snowdon Llanberis - [YHA Snowdon Llanberis Hostel | Llanberis Accommodation Snowdonia](#)
- YHA Snowdon Pen Y Pass - [YHA Snowdon Pen-Y-Pass Hostel | Cheap Snowdon Accommodation](#)

Clothing and equipment

This challenge takes place in a remote environment, away from roads and immediate access to vehicle evacuation. It is therefore extremely important that you come prepared with the correct kit for this challenge. This includes:

- A waterproof jacket which is able to keep you dry when subjected to rain for several hours at a time
- Waterproof trousers - legs get just as wet as tops.
- Footwear should also be waterproof and most importantly should have good grip. Sports trainers are not appropriate for the terrain of this challenge.
- Warm layers, including a hat and gloves.
- Full kit list is provided!

Please click [here](#) for a full kit list for this challenge. As a Charity Challenge participant, you will get members only benefits and/or discounts at a wide range of clothing and equipment suppliers including [Outdoorhire](#), [Cotswold Outdoor](#), [Snow + Rock](#), [Water to Go](#), [Sporttape](#) and [Nomad & MASTA](#).

Please be aware that because of the environment on the mountain, our leaders may ask to see the vital parts of your kit. Participants found without kit marked on the kit list may not be allowed to take part in the challenge.

Toilets

There will be bathroom facilities both at the start and end of the trek. However, during the challenge such facilities will be limited to the great outdoors!

Safety

Charity Challenge considers the safety of all of our participants and staff to be a top priority, and as such we have set up 'Challenge Safe', one of the most advanced and thorough safety management systems in the industry. Challenge Safe formalises our ethos when it comes to safety, and brings together the procedures and risk management strategies that we use to audit all aspects of our challenges, from vehicles to accommodation to the challenge activity itself. Your welfare is absolutely paramount!

A few important points to be aware of:

- The terrain on the challenge is often muddy and rocky and in wet conditions can be extremely slippery. Please make sure that your walking boots have good grip. Trainers are not appropriate as they lack grip.
- The weather in the mountains can be very different to down in the valleys. Please make sure you carry an additional warm layer, waterproof jacket and trousers and a hat and gloves.
- The route is remote with no access to top up water bottles or snacks. Ensure that you bring enough to last the day with you, so you can keep your energy levels up and keep yourself hydrated by drinking lots of fluids.

Emergencies

Your leaders are trained to deal with emergency situations in remote areas and will be carrying a mobile phone and radios in case the emergency services need to be contacted. The event is not run as a race and you will never be encouraged to walk at a pace 'beyond your ability'. There will always be a wide variety in people's walking abilities which will be carefully managed by the leader team. This team will always keep the group together for maximum safety and set a sensible pace for all to achieve this challenge within 6-10hrs. If we find that you are unable to complete the trek in this time then your leaders will help you to return to Llanberis.

Insurance

We don't offer insurance for our UK trips, as any medical emergencies would naturally be covered through the NHS. Therefore the main thing that you will not be covered for is cancellation. You can see our cancellation policy within our terms and conditions here. If you wish, you could look into your own policy that covers cancellation for travel within the UK.

Responsible Tourism

At Charity Challenge we are committed to sustainable and responsible tourism. On this challenge in particular, we always liaise with the rangers of the Snowdonia National Park to make sure that we minimise our impact on the local environment. Our leaders care passionately for the environment and will be keen to talk to you about how you can do your bit to conserve the local area and enhance your experience.

The national park rangers would like everyone to please adhere to the following requests so that this challenge creates as little disturbance to the local area as possible.

- Please make sure that you park in official car parks and not on the local streets. This minimises disturbance to local residents.
- At the start and end of this trek you will be walking in a residential area. Please keep the noise to a minimum at this time so as to avoid disturbing local people.

We would also like to encourage all our participants to spend a little extra time in the local area. Why not consider booking an extra night in a local B&B, and go out for a meal in one of the excellent local pubs after the challenge? Not only will you be able to celebrate your achievements but you will also be putting more money back into the local area. For extra information, please visit our [Responsible Tourism](#) pages, where you will be able to view a list of the other projects that we currently support.
